DRAFT - PUBLIC CONSULTATION

# 1. INTRODUCTION

## 1.1 Abbreviations and defined terms

The following abbreviations are used in this document and have the meaning provided in the table below.

Table 1.1: Document Abbreviations

Abbreviation	Meaning
<b>kVA</b>	kilo Volt Amps, which is 1,000 Volt Amps
<b>kW</b>	kilo Watts, which is 1,000 Watts
<b>MVA</b>	Mega Volt Amps, which is 1 million Volt Amps

The following defined terms are used in this document and have the meaning provided in the table below.

Table 1.2: Document Defined Terms

Defined term	Meaning
<b>access contract</b>	<p>a ‘Pilbara access agreement’ (as defined in the Part 8A of the <i>Act</i>) entered into by <i>Horizon Power Pilbara Network Business</i>.</p> <p>{Note: As at 07 April 2020, section 120 of the <i>Act</i> defined ‘Pilbara access agreement’ as an agreement under the <i>Pilbara Networks Access Code</i> between a <i>network service provider</i> and another person for that person to have access to <i>services</i> of a covered <i>Pilbara network</i>.}</p> <p>{Note: the template <i>access contract</i> can be found on <i>Horizon Power’s</i> website <a href="https://nws.com.au/">https://nws.com.au/</a>}</p>
<b>access dispute</b>	<p>has the same meaning given to it in the <i>Code</i>.</p> <p>{As at 25 June 2021, the <i>Code</i> defines <i>access dispute</i> as—</p> <ul style="list-style-type: none"> <li>(a) any dispute, between an <i>applicant</i> and the <i>NSP</i>, in connection with one or more aspects of access to <i>services</i> of a light regulation <i>network</i>, but does not include a dispute between a <i>user</i> and the <i>NSP</i> under or in connection with a contract for <i>services</i>; and</li> <li>(b) any dispute between a person and an <i>NSP</i> under or in connection with Chapter 8.</li> </ul>
<b>Access Offer</b>	<p>has the meaning given to ‘<i>access offer</i>’ in the <i>Code</i>.</p> <p>{Note: As at 25 June 2021, the <i>Code</i> defines ‘<i>access offer</i>’ as an offer to provide access to a <i>covered service</i> that complies with section 71.}</p>
<b>Act</b>	the Electricity Industry Act 2004 (WA).

Defined term	Meaning
<b>applicant</b>	has the same meaning given to it in the <i>Code</i> .  {As at 25 June 2021, the <i>Code</i> defines <i>applicant</i> as a person (who may be a <i>user</i> ) who seeks access to a <i>light regulation network</i> to establish or modify an <i>access contract</i> , and includes a prospective <i>applicant</i> .}
<b>application</b>	a <i>Paired Application</i> or <i>Application to Modify Access Contract</i> .
<b>Application to Modify Access Contract</b>	an <i>application to Modify Access Contract</i> which is submitted by the <i>applicant</i> completing Part B of the <i>Network Access Application Form</i> and sending to <a href="mailto:Pilbara@horizonpower.com.au">Pilbara@horizonpower.com.au</a> .
<b>arbitrator</b>	has the same meaning given to it in the <i>Code</i> .  {As at 25 June 2021, the <i>Code</i> defines <i>arbitrator</i> as, in relation to an <i>access dispute</i> , the person appointed to determine the <i>access dispute</i> under Chapter 7, either sitting alone, or as chair of an arbitral panel.}
<b>Authority</b>	has the same meaning given to it in the <i>Code</i> .  {As at 25 June 2021, the <i>Code</i> defines <i>Authority</i> as the Economic Regulation Authority established by the <i>Economic Regulation Authority Act 2003</i> .}
<b>business day</b>	has the same meaning given to it in the <i>Code</i> .  {As at 25 June 2021, the <i>Code</i> defines <i>business day</i> as a day that is not a Saturday, Sunday or public holiday throughout Western Australia.}
<b>capacity</b>	in relation to a part of the <i>network</i> (including a <i>connection point</i> ), refers to the maximum rate at which electricity can be transported through that part of the <i>network</i> in accordance with <i>good electricity industry practice</i> .
<b>Code</b>	Pilbara Networks Access Code 2021 (WA).
<b>Competing Application</b>	has the meaning given in Section <b>Error! Reference source not found.</b> .
<b>Complete Application</b>	an <i>application</i> which is complete to <i>Horizon Power Pilbara Network Business</i> ' satisfaction (acting as a <i>reasonable and prudent person</i> ).
<b>Connection Application</b>	an <i>application</i> to establish a new <i>connection point</i> or to modify a <i>service</i> to an existing <i>connection point</i> which is submitted by the <i>applicant</i> completing the <i>Connection Application Form</i> .
<b>Connection Application Form</b>	<i>Horizon Power's</i> online <i>Connection Application form</i> .
<b>Connection Assessment</b>	one or more technical assessments or studies conducted by or on behalf of <i>Horizon Power Pilbara Network Business</i>

Defined term	Meaning
<b>connection point</b>	<p>has the same meaning given to it in the <i>Code</i>.</p> <p>{As at 25 June 2021, the <i>Code</i> defines <i>connection point</i> as a point on a <i>light regulation network</i> which is, or is to be, identified as such (explicitly or by inference) in a contract for <i>services</i> as being an <i>entry point</i>, <i>exit point</i>, <i>interconnection point</i> or <i>bidirectional point</i>.}</p>
<b>Connection Works Agreement</b>	<p>an agreement between the <i>applicant</i> and <i>Horizon Power Pilbara Network Business</i> pursuant to which <i>Horizon Power Pilbara Network Business</i> will perform the <i>required works</i> to connect to the <i>Horizon Power coastal network</i>.</p>
<b>contracted capacity</b>	<p>for a <i>connection point</i>, means the maximum rate at which a <i>user</i> is permitted to transfer electricity to or from the <i>network</i> at the <i>connection point</i>, being either:</p> <ul style="list-style-type: none"> <li>(a) the rate specified in the <i>user's access contract</i> from time to time; or</li> <li>(b) if no rate is specified in the <i>user's access contract</i>, the maximum rate of electricity permitted to be transferred under the <i>reference service eligibility criteria</i> for the <i>reference service</i> for that <i>connection point</i> in the <i>user's access contract</i>; or</li> <li>(c) if no rate is specified in the <i>user's access contract</i> or in the <i>reference service eligibility criteria</i>, the maximum rate of electricity permitted to be transferred through the connection assets under the <i>technical rules</i>, as applicable,</li> </ul> <p>and is measured in Watts or Volt-Amps.</p>
<b>Contributions Policy</b>	<p>has the meaning given to it in the <i>Code</i>.</p> <p>{As at 25 June 2021, the <i>Code</i> defines <i>contributions policy</i> as a policy in a <i>network development policy</i> under section 41(2) dealing with contributions by <i>users</i>.}</p>

DRAFT - PUBLIC CONSULTATION

Defined term	Meaning
<b>covered network</b>	<p>has the meaning given to it in the <i>Act</i>.</p> <p>{As at 07 April 2020, the <i>Act</i> defines <i>covered network</i> as <i>network</i> infrastructure facilities that—</p> <ul style="list-style-type: none"> <li>(a) were covered by the <i>Code</i> [i.e. the <i>ENAC</i>] immediately before the day on which the <i>Electricity Industry Amendment Act 2019</i> section 4(3) comes into operation and that have not ceased to be a <i>covered network</i>; or</li> <li>(b) the Minister has decided under the <i>Code</i> [i.e. the <i>ENAC</i>] are to be a <i>covered network</i> and that have not ceased to be a <i>covered network</i>; or</li> <li>(c) are prescribed in the <i>Pilbara Networks Access Code</i> under section 120B(a) to be a covered <i>Pilbara network</i> and that have not ceased to be so prescribed; or</li> <li>(d) a <i>network service provider</i> has opted, under the <i>Pilbara Networks Access Code</i>, to be regulated under Part 8A and that — <ul style="list-style-type: none"> <li>(i) have not ceased to be so regulated under that <i>code</i> as a consequence of an option by the <i>network service provider</i> for the facilities to cease to be so regulated; or</li> <li>(ii) have not otherwise ceased to be a <i>covered network</i>.)</li> </ul> </li> </ul>
<b>covered service</b>	<p>has the same meaning given to it in the <i>Code</i>.</p> <p>{As at 25 June 2021, the <i>Code</i> defines <i>covered service</i> as a <i>service</i> provided by means of a <i>light regulation network</i>, but does not include an excluded service.}</p>
<b>Decision</b>	has the meaning given in Section <b>Error! Reference source not found..</b>
<b>ENAC or Code</b>	the <i>Electricity Networks Access Code 2004 (WA)</i> .
<b>good electricity industry practice</b>	<p>has the same meaning given to it in the <i>Code</i>.</p> <p>{As at 25 June 2021, the <i>Code</i> defines <i>good electricity industry practice</i> as the exercise of that degree of skill, diligence, prudence and foresight that a skilled and experienced person would reasonably exercise under comparable conditions and circumstances consistent with applicable written laws and statutory instruments and applicable recognised codes, standards (including relevant Australian Standards) and guidelines.}</p>
<b>Guide</b>	this User Access Guide.
<b>Horizon Power</b>	the Regional Power Corporation (ABN 57 955 011 697).

Defined term	Meaning
<b>Horizon Power coastal network</b>	<p>has the same meaning given to it in the <i>Code</i>.</p> <p>{As at 25 June 2021, the <i>Code</i> defines <i>Horizon Power coastal network</i> as the <i>network</i> comprising—</p> <ul style="list-style-type: none"> <li>(a) the <i>network</i> which became a <i>covered network</i> as a result of the Minister’s “final coverage <i>decision</i>” of 2 February 2018 under the <i>ENAC</i>; and</li> <li>(b) any other <i>network</i> owned by Regional Power Corporation and interconnected as at the <i>code</i> commencement date with the <i>network</i> in paragraph (a); and</li> <li>(c) any augmentation as at the <i>code</i> commencement date of a <i>network</i> in paragraph (a) or (b); and</li> <li>(d) any augmentation of the <i>network</i> which forms part of the <i>network</i> under section 4(1).} </li></ul>
<b>Horizon Power Pilbara Network Business</b>	<p>a <i>ringfenced business</i> unit within <i>Horizon Power</i> responsible for the <i>Horizon Power coastal network</i>, including those functions carried out by <i>Horizon Power</i> for the purposes of providing <i>network services</i> in the <i>Horizon Power coastal network</i>.</p> <p>Note: <i>Horizon Power Pilbara Network Business</i> is not a separate legal entity and all contractual commitments will be executed in the name of <i>Horizon Power</i>. Where the term <i>Horizon Power Pilbara Network Business</i> is used, it means <i>Horizon Power</i>, acting in its <i>capacity</i> as the owner and operator of the <i>covered Pilbara network</i>, as distinct from <i>Horizon Power</i> acting in its <i>capacity</i> as a provider of <i>services</i> to other regions or as a provider of non-regulated <i>services</i> such as generation and retail within the <i>NWIS</i>.</p>
<b>Investigation Proposal</b>	<p>a proposal provided by <i>Horizon Power Pilbara Network Business</i> to an <i>applicant</i> describing in detail the scope and cost of all non-standard work required to process an <i>application</i> and may include the cost of system or other studies, the cost of preparing detailed cost estimates and/or the cost of any other <i>works</i> required before <i>Horizon Power Pilbara Network Business</i> can provide an <i>Access Offer</i>.</p>
<b>Modify Access Contract</b>	<p>has the meaning given in Section 1.4.</p>
<b>Mutually Exclusive Competing Application</b>	<p>has the meaning given in Section <b>Error! Reference source not found.</b></p>

Defined term	Meaning
<b>network</b>	<p>has the same meaning given to ‘<i>network infrastructure facilities</i>’ in the <i>Act</i>.</p> <p>{As at 07 April 2020, the <i>Act</i> defines ‘<i>network infrastructure facilities</i>’ as—</p> <ul style="list-style-type: none"> <li>(a) electricity infrastructure used, or to be used, for the purpose of transporting electricity from generators of electricity to other electricity infrastructure or to end <i>users</i> of electricity; and</li> <li>(b) includes stand-alone power systems, or storage works, used, or to be used, as an adjunct to electricity infrastructure.} </li></ul>
<b>Network Access Application Form</b>	<p>the <i>application</i> form to establish access (i.e. enter into an <i>access contract</i>) to a new <i>connection point</i> or to <i>Modify Access Contract</i> as set out in Appendix A of this <i>Guide</i>.</p>
<b>network service provider (NSP)</b>	<p>has the same meaning given to ‘<i>Pilbara network service provider</i>’ in the <i>Act</i>.</p> <p>{As at 07 April, the <i>Act</i> defines ‘<i>Pilbara network service provider</i>’ as a person who—</p> <ul style="list-style-type: none"> <li>(a) owns, controls or operates a <i>Pilbara network</i> or any part of a <i>Pilbara network</i>; or</li> <li>(b) proposes to own, control or operate a <i>Pilbara network</i> or any part of a <i>Pilbara network</i>.} </li></ul>
<b>North West Interconnected System (NWIS)</b>	<p>means the ‘<i>North West Interconnected System</i>’ as defined in the Electricity Transmission and Distribution Systems (Access) <i>Act</i> 1994 (WA).</p> <p>{As at 04 December 2009, the Electricity Transmission and Distribution Systems (Access) <i>Act</i> 1994 (WA) defines ‘<i>North West Interconnected System</i>’ as interconnected transmission and distribution systems, generating works and associated works —</p> <ul style="list-style-type: none"> <li>(a) located in the Pilbara region of the State; and</li> <li>(b) into which electricity is supplied by one or more of the electricity generation plants at Dampier, Port Hedland and Cape Lambert, as expanded or altered from time to time.} </li></ul>
<b>Paired Access</b>	<p>has the meaning given in Section 1.4.</p>
<b>Paired Application</b>	<p>has the meaning given in Section 2.3.</p>
<b>Pilbara Electricity Reforms</b>	<p>has the meaning given in Section 1.2.</p>
<b>Pilbara ISO</b>	<p>has the same meaning given to it in regulation 14 of the Electricity Industry (Pilbara Networks) Regulations 2021 (the regulations).</p> <p>{Note: As at 25 June 2021, the regulations defined <i>Pilbara ISO</i> as <i>Pilbara ISOCO</i> ACN 650 785 783.}</p>

Defined term	Meaning
<b>PNR</b>	the Pilbara Networks Rules. {Note: As at 07 April 2020, the <i>Act</i> defines Pilbara Networks Rules as the Pilbara networks rules for the time being in force under Part 8A Division 3.}
<b>reasonable and prudent person</b>	has the same meaning given to it in the <i>Code</i> . {As at 25 June 2021, the <i>Code</i> defines <i>reasonable and prudent person</i> as a person acting in good faith and in accordance with <i>good electricity industry practice</i> .}
<b>reference service</b>	has the same meaning given to it in the <i>Code</i> . {As at 25 June 2021, the <i>Code</i> defines <i>reference service</i> as a <i>covered service</i> designated by a <i>services and pricing policy</i> to be a <i>reference service</i> , and which is provided on the corresponding <i>reference terms and conditions</i> .}
<b>required works</b>	has the same meaning given to it in the <i>Code</i> . {As at 25 June 2021, the <i>Code</i> defines <i>required works</i> as work which is necessary in order to provide a <i>covered service</i> under an <i>access contract</i> .}
<b>services</b>	has the same meaning given to it in the <i>Act</i> , and service has a corresponding meaning. {As at 07 April 2020, the <i>Act</i> defines <i>services</i> as— <ul style="list-style-type: none"> <li>(a) the transport of electricity, and other <i>services</i>, provided by means of <i>network</i> infrastructure facilities; and</li> <li>(b) <i>services</i> ancillary to those <i>services</i>.}</li></ul>
<b>Technical Rules</b>	has the meaning given to ‘harmonised technical rules’ in the <i>PNR</i> . {As at 29 June 2021, the <i>PNR</i> defines ‘harmonised technical rules’ as the Pilbara Harmonised Technical Rules in Appendix 5, having effect under rule 58}
<b>user</b>	has the same meaning given to it in the <i>Code</i> . {As at 25 June 2021, the <i>Code</i> defines <i>user</i> as a person, who is a party to a contract for <i>services</i> with an <i>NSP</i> , and in connection with a deemed associate arrangement, includes the <i>NSP</i> ’s other business.}

## 1.2 Background

On 2 February 2018, the then Minister for Energy announced that all the interconnected electricity transmission and distribution infrastructure facilities owned by *Horizon Power* in the *NWIS* would be covered under the *ENAC* commencing 1 January 2020 (**Decision**).

The Minister for Energy subsequently amended the *ENAC* to extend the coverage commencement date to 1 July 2021.

The *Decision* defined *Horizon Power’s covered network* (i.e. *Horizon Power costal network*) as follows:

- all of *Horizon Power's network* infrastructure in the West Pilbara area, which supplies customers located in and around Karratha, including the connections to the Port of Dampier, Cape Lambert, Point Samson and Roebourne;
- all of *Horizon Power's network* infrastructure in the East Pilbara area, which supplies customers in and around greater Port Hedland, including the connections to the port operations of BHP Billiton and Fortescue Metals Group;
- the transmission line that connects Regional Power Corporation's *network* infrastructure in the West Pilbara and East Pilbara areas; and
- the transmission line that runs from Port Hedland to the site of the former mining town of Goldsworthy.

Figure 1 below is a map showing the geographical extent of the *Horizon Power coastal network* and, for reference only, the surrounding *networks*. Please do not rely on information in the map relating to *networks* other than *Horizon Power coastal network*.

### Pilbara network facilities

Please note: this map is indicative only and should not be relied upon for non-Horizon Power network information.

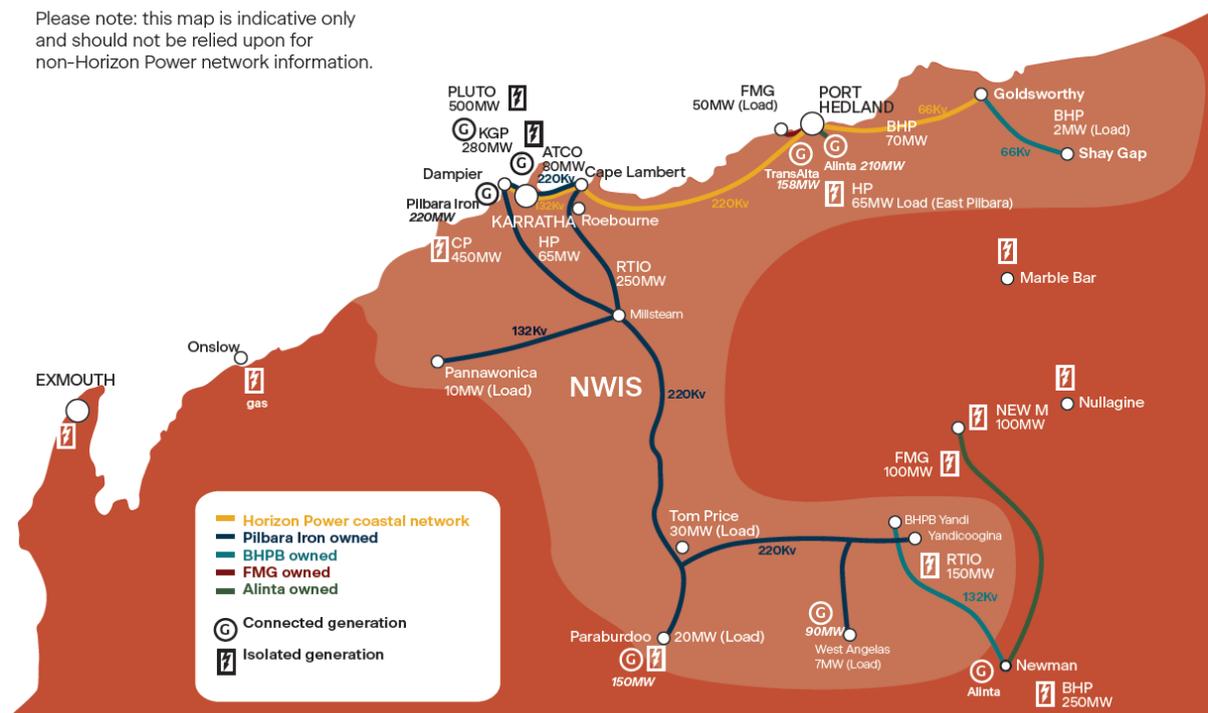

Figure 1: *Horizon Power coastal network and surrounding networks*

The Western Australian State Government implemented a new light regulatory regime under the PNAC, which will cover the access and use of *covered networks* in the Pilbara region of Western Australia from 1 July 2021 (***Pilbara Electricity Reforms***) including the *Horizon Power coastal network*.

### 1.3 Horizon Power Pilbara Network Business

Following coverage commencement date, to comply with section 131 of the PNAC, a ringfenced business unit called “**Horizon Power Pilbara Network Business**” was established by *Horizon Power* for the purposes of operating its *network* business relating to the *Horizon Power coastal network*.

*Horizon Power Pilbara Network Business* is not a separate legal entity and all contractual commitments will be executed by *Horizon Power*. In this *Guide*, where the term *Horizon Power Pilbara Network Business* is used, it means *Horizon Power*, acting in its *capacity* as the owner and operator of the *covered network*, as distinct from *Horizon Power*, acting in its *capacity* as a provider of *services* to other regions or as a provider of non-regulated *services* such as generation and retail within the *NWIS*.

### 1.4 Who should use this Guide

This *Guide* has been prepared for use by parties that are seeking to:

- establish both:
  - a new *connection point*; and
  - access (i.e. enter into an *access contract*) for the new *connection point*,

with *Horizon Power Pilbara Network Business* (**Paired Access**).

- modify their existing *access contract* with *Horizon Power Pilbara Network Business* where such modification would result in a change of *services* provided by:
  - an increase or decrease to the contracted maximum demand;
  - a new *connection point*; or
  - modification of a generating plant,

#### **(Modify Access Contract)**

If you are looking to apply for *covered services* other than that set out in this *Guide*, then please contact our contact person set out in Section 2.1 of this *Guide*.

### 1.5 Information in this Guide

This *Guide* contains information required under section 42 of the *Code* including:

- who to contact to discuss your preliminary enquiries or *application* (see Section 2.1);
- the process and timeframes (including *Horizon Power Pilbara Network Business*' response times) in relation to an *application* (see Sections 3, 4, 5, 7 and 8);
- your right to refer an *access dispute* to arbitration (see Section 13);
- the queuing policy that is applied for managing multiple competing *applications* (see Section 11); and

- how any confidential information is exchanged between the parties (see Section 12)

## 1.6 We will negotiate in good faith

Under the *Code*, both parties are obliged to negotiate in good faith.

We are committed to negotiating with you in good faith to achieve commercially acceptable outcome.

## 1.7 Website

Please visit *Horizon Power Pilbara Network Business'* dedicated [website](#) which contains:

- additional information on the *Pilbara Electricity Reforms*;
- copies of policies and other documents which *Horizon Power Pilbara Network Business* is required to publish under the *Code*; and
- Frequently Asked Questions (FAQs).

## 2. CONTACT, PRELIMINARY ENQUIRIES AND PAIRED APPLICATIONS

### 2.1 Contact Details

If you wish to speak to us to make an enquiry, please:

- submit an [online enquiry form](#); or
- email [Pilbara@horizonpower.com.au](mailto:Pilbara@horizonpower.com.au)

Our postal address is:

Manager Commercial & Open Access  
Horizon Power Pilbara Network Business  
18 Brodie Hall Drive, Bentley, WA, 6102

### 2.2 Preliminary enquiries

Each *applicant* usually has different needs. Prior to submitting an *application*, we recommend that you make preliminary enquiries by contacting our contact person set out in Section 2.1 of this *Guide*. You can also complete the online connection enquiry form for:

- [new connection](#) (for complex load, non-renewable generation and renewable generation); or
- [complex supply upgrade](#).

Making preliminary enquiries can help you:

- gather additional information about the *Horizon Power coastal network*;
- clarify queries regarding your *application*; and
- clarify queries on the *Network Access Application Form* or *Connection Application Form*.

However, at any time, you may submit:

- a *Paired Application*, by following the process outlined in Section 2.3; or
- an *application to Modify Access Contract* by following the process outlined in Section 5.

We will promptly respond to discuss your enquiry and, where applicable, next steps and applicable fees.

Once the enquiry process has been completed, you will need to submit an *application* and pay any associated costs to *Horizon Power Pilbara Network Business* if you wish to progress your proposed connection. We expect that the enquiry process will inform your *application*. However, the enquiry process (and any related fees or costs paid) may be wholly separate from any work that *Horizon Power Pilbara Network Business* may complete in the future to process your proposed connection.

### 2.3 Submitting the Paired Application

To submit an *application* for *Paired Access* with *Horizon Power Pilbara Network Business* you must:

- complete and submit the online [Connection Application Form](#); and

After you complete and submit the online *Connection Application Form*, you will receive a confirmation email with the *application* reference number. You will need to provide this *application* reference number in the *Network Access Application Form*.

- complete Part A of the *Network Access Application Form* and send it to [Pilbara@horizonpower.com.au](mailto:Pilbara@horizonpower.com.au)

#### **(Paired Application).**

You must include sufficient information reasonably required to enable us to prepare an *Access Offer* in relation to the access sought or to determine whether we need to undertake further investigations.

You must use reasonable endeavours to accurately and completely address each applicable item in the *Network Access Application Form* and the *Connection Application Form* (including the provision of any supporting information required).

## 3. PAIRED APPLICATION PROCESS FOR CONNECTIONS BELOW 1 MVA (LOAD)

This Section 3 sets out the process and timeframes after you have submitted a *Paired Application* (as set out in Section 2.3) for load connections below 1 MVA.

### 3.1 Completed Access Application

We will notify you within **five (5) business days** of receipt of your *Paired Application* as to whether your *Paired Application* is a *Complete Application*. If it is incomplete, we will specify the information required to complete the *Paired Application*.

Once you have provided the specified information, we will notify you within a further **five (5) business days** whether it is a *Complete Application*.

The above process is repeated until we have a *Complete Application*. Prior to receiving a *Complete Application*, we will make every effort to progress the *Paired Application* in accordance with *good electricity industry practice*, even if the *Paired Application* is not complete in every respect.

When we notify you that we have received a *Complete Application*, we will issue you with a Design Invoice for the amount of \$6,287 (including GST) for connections with a total maximum load of between 30 kVA and 1,000 kVA.

If we incur costs in excess of \$6,287 (including GST), you will be charged the additional costs incurred by *Horizon Power*. This amount covers the work required to prepare a detailed design and formal quote. This amount is non-refundable, even if you decide not to proceed with the project.

If we determine that you have not satisfactorily progressed the *Paired Application* then you will be deemed to have withdrawn the *Paired Application* and the *Paired Application* will be considered to be dormant. However, we will not terminate a dormant *Paired Application*:

- unless we have provided you with a notice that we intend to terminate the dormant *Paired Application* and giving you the opportunity to provide us with information demonstrating why the dormant *Paired Application* should not be terminated;
- until at least 3 years after you submitted the *Paired Application*; and
- if the lack of progress is due to us not progressing the *Paired Application*.

### 3.2 Making an Access Offer

We will generally issue you with an *Access Offer* within **thirty (30) business days** of confirmation of a *Complete Application* and payment of the Design Invoice.

However, we:

- are not required to make an *Access Offer* in the circumstances set out in Section 7; and
- may extend the period for making an *Access Offer* in circumstances set out in Section 8.

Our *Access Offer* will:

- set out the price and other terms and conditions;
- contain details of any *required works* to be undertaken by us or you (where relevant) and any applicable technical and performance specifications;
- state that the connection cost estimate is not final and binding on *Horizon Power Pilbara Network Business*. The user:

- will be liable for the total final connection cost (regardless of a previously indicated estimate) unless the *Contributions Policy* applies in which case the *user* will be liable for the contribution as determined under the *Contributions Policy*; and
- will have no claim or right or cause of action against *Horizon Power Pilbara Network Business* for any errors, omissions or any discrepancy between the connection cost estimate and the final connection cost;
- be in a form capable of acceptance by you so as to constitute an *access contract*;
- where applicable, be conditional on an interconnection agreement being in place between *Horizon Power Pilbara Network Business* and another *NSP* where the entry or exit point for the new connection is the interconnection point between *Horizon Power Pilbara Network Business* and that *NSP*; and
- be conditional on the *Pilbara ISO* certifying that the new connection may proceed under Rule 270(2) of the *PNR*.

Please find a copy of our [template access contract](#).

### 3.3 Accepting an Access Offer

Subject to Section 11.1:

- our *Access Offer* will remain valid for up to **30 calendar days**;
- to accept the *Access Offer*, you will need to arrange for one of your authorised representatives to sign and return to us the required number of original copies of the *access contract* provided with the *Access Offer* (one for each of the contracting parties). The signed original copies will then need to be sent to the relevant *Horizon Power Pilbara Network Business* representative listed in Section 2.1 of this *Guide*.

We will proceed to execute and date each copy of every agreement within **ten (10) business days** of receipt of the required documents. We will return an original copy of the *access contract* to you. Where the *access contract* allows for the exchange of counterparts, identical copies may need to be executed to complete the execution process (all of the identical copies, taken together, will be considered to be one instrument).

You are not required to accept the *Access Offer* that we make to you. If you do not wish to accept our *Access Offer*, then you may notify us in writing (by advising the contact person identified in Section 2.1 of this *Guide*) that you either:

- (a) do not accept the offer and that you no longer wish to continue discussions in relation to the *Access Offer* (i.e. you withdraw your *application*); or
- (b) wish to enter into negotiations regarding the *Access Offer* (see Section 13).

If **30 calendar days** after receipt of the *Access Offer* you have not provided us with your intentions via written notification as per the points above, we will terminate the *Access Offer* and the *Paired Application* and notify you in writing.

## 4. PAIRED APPLICATION PROCESS FOR CONNECTIONS ABOVE 1 MVA (LOAD) AND GENERATION

This Section 4 sets out the process and timeframes after you have submitted a *Paired Application* (as set out in Section 2.3) for load connections 1 MVA and above, and generation.

### 4.1 Completed Access Application and Further Investigation

We will notify you within **fifteen (15) business days** of receipt of your *Paired Application* whether your *application* is a *Complete Application*.

If your *Paired Application* is incomplete, we will specify the information required to complete the *Paired Application*. Once you have provided the specified information, we will notify you within **fifteen (15) business days** whether it is a *Complete Application*. The process is repeated until we have a *Complete Application*. Prior to receiving a *Complete Application*, we will make every effort to progress the *Paired Application* in accordance with *good electricity industry practice*, even if the *Paired Application* is not complete in every respect.

When we notify you that you have a *Complete Application*, we will advise you either:

- no further investigation is required, in which case, we will issue you with a Design Fee invoice;
- further investigation is required, in which case, we will:
  - provide you with an *Investigation Proposal* and invoice for us to complete the scope of the works set out in the *Investigation Proposal*;
  - advise if modelling is required to be undertaken by *Pilbara ISO*.

You may be required to provide a software model and model inputs.

If we determine that you have not satisfactorily progressed the *Paired Application* then you will be deemed to have withdrawn the *Paired Application* and the *Paired Application* will be considered to be dormant. However, we will not terminate a dormant *Paired Application*:

- unless we have provided you with a notice that we intend to terminate the dormant *Paired Application* and giving you the opportunity to provide us with information demonstrating why the dormant *Paired Application* should not be terminated;
- until at least 3 years after you submitted the *Paired Application*; and
- if the lack of progress is due to us not progressing the *Paired Application*.

### 4.2 Further investigation

To accept the *Investigation Proposal*, you must:

- notify us of your acceptance of the *Investigation Proposal*; and
- pay the invoice set out in the *Investigation Proposal*,

within **30 calendar days** of receipt of the *Investigation Proposal*. Otherwise, the *Paired Application* will be deemed to have been withdrawn.

If you request amendments to the scope of work in the *Investigation Proposal*, then we must negotiate in good faith to reach agreement on a modified *Investigation Proposal*.

### 4.3 Connection Assessment Report

Generally, within **forty (40) business days** after we receive your acceptance of the *Investigation Proposal* and receipt of payment of the invoice (set out in the *Investigation Proposal*), we will conduct the *Connection Assessment* (including technical assessments and studies as set out under the *Investigation Proposals*) and provide a *Connection Assessment* report which includes:

- a steady state study report that documents the input assumptions and findings in terms of asset overload;
- options analysis; and
- a scope of works and high level connection cost estimate.

### 4.4 Making an Access Offer

If no further investigations are required (as described in Section 4.1), we will generally issue you with an *Access Offer* within **thirty (30) business days** of receipt of payment of the Design Invoice (and any other costs).

If **further investigations** are required (as described in Section 4.2), to obtain an *Access Offer*, you will need to notify *Horizon Power Pilbara Network Business* which of the options (as set out in the *Connection Assessment* Report in Section 4.3) you have selected and one of the following:

- **Option 1** - request us to issue an *Access Offer* within **20 business days** of your request.

Section 42(5) of the *Code* requires *Horizon Power Pilbara Network Business* to issue an *Access Offer* to an *applicant* generally within **60 business days** after receipt of a *Complete Application* where further investigations are required. We will, if requested, issue an *Access Offer* within the timeframe prescribed in section 43(3) of the *Code* but this will be based on a high-level connection cost estimate; or

- **Option 2** – request us to prepare further detailed design analysis proposal.

You will need to instruct us to proceed with the detailed design analysis proposal and pay the costs set out in that proposal. We will then undertake the detailed design analysis which includes a more accurate connection cost estimate.

Prior to issuing an *Access Offer*, the connection cost estimate may be further refined to +/- 10% accuracy class through the tender process.

By selecting Option 2, you:

- agree that section 42(5) of the *Code* does not apply (and we will not need to provide the *Access Offer* within the **60 business days** after receipt of a *Complete Application* where further investigations are required).
- acknowledges that the timeframe for us to issue the *Access Offer* will vary depending on the complexity of the *Paired Application* and how long you take to respond to us.

However, we:

- are not required to make an *Access Offer* in the circumstances set out in Section 7; and
- may extend the period for making an *Access Offer* in circumstances set out in Section 8.

Our *Access Offer* will:

- set out the price and other terms and conditions;
- contain details of any *required works* to be undertaken by us and you (where relevant) and any applicable technical and performance specifications;
- be in a form capable of acceptance by you so as to constitute an *access contract*;
- be conditional on *Pilbara ISO* certifying that the new connection may proceed under Rule 270(2) of the *PNR*;
- state that the connection cost estimate (in Option 1 or Option 2 above) is not final and binding on *Horizon Power Pilbara Network Business*. The *user* acknowledges and agrees that:
  - the *user* will be liable for the total final connection cost (regardless of a previously indicated estimate); and
  - there will be no claim or right or cause of action against *Horizon Power Pilbara Network Business* for any errors, omissions or any discrepancy between the connection cost estimate and the final connection cost.
- be conditional on commissioning / energisation of the *connection point*;
- be conditional on:
  - interconnection agreement being in place between *Horizon Power Pilbara Network Business* and another *NSP* where the entry or exit point for the new connection is the interconnection point between *Horizon Power Coastal Network* and that *NSP*
- where applicable, be conditional on:
  - the *applicant* and *Horizon Power Pilbara Network Business* entering into a *Connection Works Agreement*;
  - approval by the Minister of Energy under Section 68 of the Electricity Corporations Act 2005; or

- approval of the *Horizon Power Board*.

Please find a copy of our [template access contract](#).

#### 4.5 Accepting an Access Offer

Section 3.3 applies in relation to accepting an *Access Offer*.

### 5. MODIFY AN EXISTING COVERED SERVICE

#### 5.1 Increase or decrease in contracted capacity

You may make a preliminary enquiry to the contact person (set out in in Section 2.1 of this *Guide*) to request an increase or decrease in *contracted capacity* with respect to an existing *covered service* under your existing *access contract*.

We will endeavour to notify you whether or not we accept the increase or decrease in *contracted capacity* within **15 business days** of our receipt of your written enquiry (or such further time as required by us (as an *NSP*) acting as a *reasonable and prudent person* would require to consider such an *application*).

If we determine that we cannot form the view required for acceptance of the increase or decrease in *contracted capacity*, then we must notify you that you must:

- complete and submit the online [Connection Application Form](#); and

After you complete and submit the online *Connection Application Form*, you will receive a confirmation email with the *application* reference number. You will need to provide this *application* reference number in the *Network Access Application Form*.

- complete Part B of the *Network Access Application Form* and send it to [Pilbara@horizonpower.com.au](mailto:Pilbara@horizonpower.com.au)

You must include sufficient information reasonably required to enable us to prepare an *Access Offer* in relation to the access sought or to determine whether we need to undertake further investigations.

You must use reasonable endeavours to accurately and completely address each applicable item in the *Network Access Application Form* and the *Connection Application Form* (including the provision of any supporting information required).

#### 5.2 Addition of a connection point or modification of generating plant

If you are looking to create a new *connection point* or to materially change any of those characteristics of an existing generating plant you must:

- complete and submit the online [Connection Application Form](#); and

After you complete and submit the online *Connection Application Form*, you will receive a confirmation email with the *application* reference number. You will need to provide this *application* reference number in the *Network Access Application Form*.

- complete Part B of the *Network Access Application Form* and send it to [Pilbara@horizonpower.com.au](mailto:Pilbara@horizonpower.com.au)

You must include sufficient information reasonably required to enable us to prepare an *Access Offer* in relation to the access sought or to determine whether we need to undertake further investigations.

You must use reasonable endeavours to accurately and completely address each applicable item in the *Network Access Application Form* and the *Connection Application Form* (including the provision of any supporting information required).

### 5.3 Process and Timeframe

The process and timeframe set out in Sections 3 or 4 apply to modification of an existing *covered service* as set out in this Section 5.

## 6. CONTRIBUTIONS POLICY

The *Contributions Policy* applies to all *Connection Applications*.

## 7. WHEN CAN WE NOT ISSUE AN ACCESS OFFER

We are not required to make an *Access Offer*:

- if you have withdrawn the *application* ;
- if we have concluded that it is not technically feasible or consistent with the safe and reliable operation of the *Horizon Power coastal network* to provide the service requested by you, having used all reasonable efforts to accommodate your requirements including in relation to *required works*;
- if the provision of the *covered service* requested by you would require the extension of *Horizon Power coastal network* and that extension is not an 'augmentation' as covered by section 4 of the *Code*; or
- in the case of a new *connection point*, until the *Pilbara ISO* has provided a certification that the new connection may proceed in accordance with the *PNR*.

If we do not make an *Access Offer* because it is not technically feasible or consistent with safe and reliable operation of the *Horizon Power coastal network*, we will give you written reasons explaining why the *Paired Access* cannot be provided.

If the *Pilbara ISO* notifies us that a new connection may not proceed under the *PNR*, then we will collaborate with the *Pilbara ISO* and, if applicable, you, to find a solution to address the *Pilbara ISO's* concerns in according with the *PNR*.

## 8. WHEN CAN WE EXTEND TIMEFRAME TO ISSUE ACCESS OFFER

The period for making an *Access Offer* may be extended in circumstances where:

- you fail to pay any reasonable costs associated with progressing the *application*;
- you fail to accept our reasonable proposal for conducting further investigations;
- you otherwise fail to take actions in a timely manner which are reasonably required by us to progress the *application*;

- there is another reason, beyond our reasonable control which directly affects the progress of the *application* and prevents us from progressing the *application* within that period; or
- you seek to amend the details of the *application* (as set out in Section 9.1).

## 9. AMENDMENT AND WITHDRAWAL OF APPLICATION

### 9.1 Amendment of Application

Prior to entering into an *access contract*, you may at any time make a request to amend the details of the *application* with our consent. We will not unreasonably withhold our consent to a requested amendment and may give our consent subject to reaching agreement on a reasonable extension to the period and costs associated with assessing the *application*, undertaking further investigations and making the *Access Offer*.

You must advise us if there is a material change in any information previously provided by you in relation to the *application* or enquiry made.

### 9.2 Withdrawal of Application

You may at any time before you enter into an *access contract* notify us in writing that you wish to withdraw your *application*.

## 10. COSTS OF PILBARA ISO

You will be liable for any and all *Pilbara ISO* costs related with your *application* (including any modelling and certification costs charged by *Pilbara ISO*).

## 11. COMPETING APPLICATIONS

### 11.1 Queuing Policy: executing access contract to “reserve capacity”

Priority between the *applicants* whose access to *covered services* may rely on the *capacity* of one or more shared assets in common (e.g. *Competing Applications*) is **not** impacted or determined by the date:

- the *application* was submitted; or
- the date that an *Access Offer* was made.

Assumptions used in the studies will **only be locked in** (i.e. *capacity* “reserved”) when both the *access contract* and *Connection Works Agreement* (if applicable, as determined by *Horizon Power Pilbara Network Business*) have been entered into (i.e. fully executed by both parties), and the *applicant* pays any guarantee requested in accordance with *Contributions Policy* or the *Connection Works Agreement*.

Until the *access contract* and *Connection Works Agreement* have been entered into (i.e. fully executed by both parties) and the *applicant* pays any guarantee requested in accordance with *Contributions Policy* or the *Connection Works Agreement*:

- the assumptions used in the studies will not be locked in;

- the *applicant* bears the risk that some studies may need to be repeated at the *applicant's* costs;
- *Horizon Power Pilbara Network Business* (in its sole discretion) reserves the right to require studies to be repeated where the assumptions are no longer sufficiently accurate including where:
  - significant new loads become committed while the *application* is in progress; or
  - the *application* has been proceeding for long enough that trend demand growth has eroded spare *capacity* sufficiently to require updating the study assumptions.
- *Horizon Power Pilbara Network Business* will take all reasonable steps to minimise the resulting cost and delay suffered by the affected *applicants*.

## 11.2 Mutually Exclusive Competing Application

From time to time, *Horizon Power Pilbara Network Business* may determine that:

- two or more *Connection Applications* are competing and the provision of *covered service* sought in one *Connection Application* may impede *Horizon Power Pilbara Network Business's* ability to provide the *covered services* that are sought in the other *Connection Application* (**Competing Application**).
- *Competing Applications* relate to a mutually exclusive project (i.e. two projects can be said to be mutually exclusive where the success of one project relies on an outcome that is mutually exclusive to an outcome on which the other project relies) (**Mutually Exclusive Competing Applications**). For example:
  - Multiple retailers may have concurrent *applications* for different solutions to supply the same end-use customer. The customer will ultimately select only one supply option and the unsuccessful competing option(s) will definitely not proceed.
  - Multiple end-use customers may be competing for the same scarce resource, for example port *capacity* or a power purchase agreement on offer by a large retailer. Only one of the potential customers will be successful in securing that scarce resource and the other potential customers will no longer require the particular *application*.

In these circumstances, the allocation of *capacity* to one *applicant* results in the other *applicants'* proposals (e.g. to purchase or sell the related downstream service) being uncompetitive.

## 11.3 Competing offers

*Horizon Power Pilbara Network Business*:

- may make a Connection Offer which is conditional on the non-acceptance of one or more other Connection Offer(s) (**Competing Offer**); and

- will withdraw one or more Competing Offer(s) as soon as possible after receiving valid acceptance of a relevant Competing Offer.

#### 11.4 Notice of Competing Applications

*Horizon Power Pilbara Network Business:*

- may notify the *applicants* where *Competing Applications* or potentially *Competing Applications* exist and will indicate the nature of potential constraints that may affect the *applicant* if those other *applications* proceed.
- will take all care to minimise the risk of disclosing confidential information about an *applicant's* project. Where it is not possible to disclose the existence of a *Competing Application* and its potential impact on another *applicant's* connection without revealing confidential information to that other *applicant*, *Horizon Power Pilbara Network Business* must nonetheless disclose those facts.

Where *Horizon Power Pilbara Network Business* considers that two or more *applicants* might benefit from a shared solution, it may recommend that the parties enter discussions, but will only provide identifying information about each party with each party's written consent.

#### 11.5 Identify Mutually Exclusive Competing Applications

*Horizon Power Pilbara Network Business* will make reasonable endeavours to identify where *applications* are likely to be *Mutually Exclusive Competing Applications* including:

- asking relevant *applicants* to disclose where they believe their *application* is likely to be a *Mutually Exclusive Competing Application* and may ask for additional information to help it form an opinion as to whether the *applications* are *Mutually Exclusive Competing Applications*.
- considering factors such as:
  - whether the *Connection Application* specify the same or similar locations for the *connection point*;
  - whether the type of facilities that are proposed to be supplied under each *Connection Application* are likely to supply the same type of service;
  - whether multiple retailers have applied for a connection solution of a similar *capacity* to a similar location; and
  - whether market intelligence suggests a competitive process or a scarce resource to which multiple *applications* appear likely to relate.

#### 11.6 Determination of Mutually Exclusive Competing Applications

Where *Horizon Power Pilbara Network Business* makes a determination that *Mutually Exclusive Competing Applications* have been submitted, *Horizon Power Pilbara Network Business* will write to the *applicants* advising each *applicant*:

- of its determination that the *application* may be a *Mutually Exclusive Competing Application*;

- the demand forecasts used for the purposes of connection studies do not include the load associated with Mutually Exclusive Competing Applications.

*Horizon Power Pilbara Network Business* will ensure that demand forecasts used for the purposes of connection studies do not include the load associated with Mutually Exclusive Competing Applications.

## 12. CONFIDENTIALITY

### 12.1 Defined terms

In this Section 12:

- “confidential information” means information that:
  - by its nature is confidential; or
  - is specified to be confidential by the discloser;

but excludes:

- information which is in the public domain or ascertainable from public domain sources; and
- information which came into the recipient’s hands by means which did not create a duty of confidentiality under the Pilbara regime; and
- information which the recipient already possessed at the time it was disclosed to the recipient by the discloser; and
- information which the recipient develops independently.
- “discloser” means an entity who discloses confidential information to a recipient under the Pilbara regime, and includes an information owner;
- “information owner”, for an element of confidential information, means the entity whose confidence would be breached by the element’s disclosure;

{Note: This will often be the entity who first discloses confidential information under the Pilbara regime, or the entity who owns the confidential information.}

- “Pilbara regime” means Parts 8A and 9B of the *Act*, Parts 8 and 10 of the *Act* applying in respect of a *Horizon Power coastal network*, the *Code*, and the *PNR*; and
- “recipient” means a person to whom confidential information is disclosed under the Pilbara regime.

### 12.2 Usage and disclosure of confidential information

We must comply with subchapter 9.5 of the *Code* in respect of confidential information.

A recipient:

- may use confidential information for the purposes of performing a function under the Pilbara regime and as required or permitted by the *Code* or the Pilbara regime; and

- must not use confidential information for any other purpose, without the information owner's written consent.

A recipient must not disclose confidential information except as permitted under subchapter 9.5 of the *Code* including:

- with the information owner's written consent, in accordance with any conditions in that consent
- on a confidential basis to the recipient's legal and other professional advisers; and
- as required under a written law, the ASX Listing Rules or the rules of any other applicable financial market; and
- to, or as directed by, a court or *arbitrator*, on a confidential basis unless the court, *arbitrator* directs otherwise; and
- if:
  - the recipient does not disclose any elements of the information that could lead to the identification of the information owner; or
  - the manner in which the recipient discloses the information does not identify the information owner and could not reasonably be expected to lead to the information owner being identified.
- If a document contains both confidential information and other information, a recipient may disclose the document if:
  - the confidential information is omitted or obscured; and
  - the omission of confidential information is evident from a mark or note at the place in the document from which the information is omitted.

## 13. NEGOTIATIONS

### 13.1 Commencing negotiations following Application

If you have made an *application* you may make a written request for negotiations in relation to any aspect of your *application* including:

- whether the *Paired Access* or *Modify Access Contract* can be granted; and
- the price and other terms and conditions of an *Access Offer*.
- A negotiation notice must be:
  - made in writing; and
  - sent to [Pilbara@horizonpower.com.au](mailto:Pilbara@horizonpower.com.au)

### 13.2 Parties to negotiate in good faith

Following your written request for negotiations, we must negotiate in good faith about how the *Paired Access* or *Modify Access Contract* can be granted and if so, the terms and conditions for the provision of these *services*.

### 13.3 End of negotiations

You may at any time bring the negotiation to an end by issuing a written notice to *Horizon Power Pilbara Network Business*.

## 14. ACCESS DISPUTES

At any time, from 7 January 2022, you or *Horizon Power Pilbara Network Business* may lodge a notice with the *Authority* that an *access dispute* exists. The parties will then follow the dispute resolution and arbitration mechanism set out in Chapter 7 of the *Code*.

An *access dispute* can include such matters as:

- whether you or *Horizon Power Pilbara Network Business* has complied with applicable requirements regarding the *application*;
- whether the *Horizon Power Pilbara Network Business* has correctly processed the *application* in accordance with this *Guide*;
- the terms and prices for *services*;
- technical requirements for connection;
- constraints;
- exemptions from the *Technical Rules*; and
- any other matter in connection with an *application* on which *Horizon Power Pilbara Network Business* and you cannot reach agreement.

## APPENDIX A – NETWORK ACCESS APPLICATION FORM

Italicised terms used in this form have the meaning given to them in the User Access Guide.

*Applicants* must first complete and submit the online *Connection Application Form* to receive a confirmation email with the *application* reference number (**Connection Application Reference Number**). Please insert the *Connection Application* Reference Number in this form for each proposed *connection point*. In this form, please either complete Part A (for new *access contract*) or Part B (to modify existing *access contract*).

DRAFT - PUBLIC CONSULTATION

## PART A – PARIED CONNECTION

This Part A is to be completed by an *applicant* seeking access to a new *connection point* and to enter into a new *access contract*).

### Applicant

<b>Company Name</b>	<b>ABN</b>
<b>Address</b>	<b>Post Code</b>
<b>Contact Name</b>	
<b>Phone</b>	<b>Email Address</b>

### Representative details

(if applicable, please provide contact information for representative or consultant who will be authorised to liaise with Horizon Power)

<b>Business / Company Name</b>	<b>ABN</b>
<b>Address</b>	<b>Post Code</b>
<b>Representative Name</b>	
<b>Phone</b>	<b>Email Address</b>

### Proposed Connection Point Details

(copy and paste below table for each proposed *connection point*)
